NOTICE OF PROPOSED RULE MAKING

Adopted: March 12, 2003

Released: March 14, 2003

Comment Date: May 5, 2003

Reply Comment Date: May 20, 2003

By the Assistant Chief, Audio Division:

1. The Audio Division has before it a petition for rule making filed by Victoria RadioWorks, Ltd. ("petitioner"), licensee of Station KEPG(FM), Channel 265A, Victoria, Texas, proposing the substitution of Channel 265C3 for Channel 265A at Victoria, and the modification of Station KEPG(FM)'s license accordingly. To accommodate the upgrade, petitioner also proposes the deletion of vacant Channel 265A at George West, Texas. Petitioner states its intention to apply for the channel, if allotted.

2. In support of its proposed deletion of Channel 265A, petitioner states that George West is a community with a 2000 U.S. Census population of 2,524 persons. Petitioner presumes that vacant Channels 228C3 and 292A at George West will be made available for auction at some date in the distant future.¹ Petitioner claims that even if all three allotments drew bids, the permittees would have three years to construct. In this regard, the petitioner contends that the remaining two allotments will be adequate to serve a community of 2,539 persons. In the meantime, the public interest would be better served by upgrading Station KEPG(FM) to Channel 265C3.

3. In contrast to the delay and uncertainty, Station KEPG(FM) would make use of the available spectrum to provide improved service to the public immediately. The upgrade would result in an 87% increase in the area served and a 10% increase in 60 dBu service population, representing an additional 9,226 persons.

4. We believe that this proposal warrants consideration since it would allow KEPG(FM) at Victoria, Texas, to expand its service area. Additionally, the deletion of vacant Channel 265A at George West, Texas,

¹ On January 7, 1998, Channel 228C3 was allotted to George West in MM Docket No. 91-283 and is listed on pending Auction No. 37. Additionally, on June 26, 2002, Channel 292A was allotted in MM Docket No. 01-147 and is pending a future auction.

to accommodate the upgrade would not potentially deprive the community of its sole local service nor is the channel listed for auction. An engineering analysis has determined that Channel 265C3 can be allotted to Victoria in compliance with the Commission's minimum distance separation requirements with a site restriction of 7.1 kilometers (4.4 miles) southwest at petitioner's presently licensed site.² Since Victoria is located within 320 kilometers (199 miles) of the U.S-Mexican border, concurrence of the Mexican government has been requested. We shall propose to modify Station KEPG(FM)'s license to specify operation on Channel 265C3 in lieu of Channel 265A at Victoria, Texas. In accordance with the provisions of Section 1.420(g)(3) of the Commission's Rules, we shall not accept competing expressions of interest in the use of Channel 265C3 at Victoria, Texas, or require petitioner to provide an equivalent class channel for use by other interested parties.

5. Accordingly, we seek comments on the proposed amendment of the FM Table of Allotments, Section 73.202(b) of the Commission's Rules, for the communities listed below, to read as follows:

<u>City</u>	<u>Channel No.</u>	
	<u>Present</u>	<u>Proposed</u>
Victoria, Texas	222A, 236C3, 254C1 300C1, 265A	222A, 236C3, 254C1 300C1, 265C3
George West, Texas	228C3, 292A, 265A	228C3, 292A

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.
